

The image displays a grid of 20 research posters from the University of Cape Town's Centre for ICT4D. Each poster is a digital slide with a blue header containing the university logo and 'UNIVERSITY OF CAPE TOWN' text. The posters are arranged in four rows. Row 1: 'Digital Libraries Laboratory' (May 2017), 'Information Retrieval Products', 'Information Retrieval', 'Do Topics & Time Go Together?', 'African Language Content Generation'. Row 2: 'Knowledge Engineering', 'Multiple choice question generation for learners', 'Changes in clinical practice guidelines (Yamiko Msosa)', 'Educational Technology', 'A Comparison of Socially-Motivated Discussion Forums Models for LMSes'. Row 3: 'Digital Libraries', 'KnowledgeE ENgineering team', 'Retrieval for Related African Languages', 'Information Retrieval for Unemployment', 'NLG for financial data (Cameron Kyle)'. Row 4: 'Digital Libraries', 'Streamlining Technology-driven Orchestration', 'Investigating audio classification for automating the trimming of videos in Opencast', 'Multi-stakeholder design of mobile micro-enterprise financial management system', 'IsiZulu & isiXhosa weather bulletins using NLG', 'Ontology Engineering: Modularity (Zubeida Khan)', 'Integrated In-Content Communication for Shared Textbook Use', 'questions, comments, ...'. Each poster includes a brief summary of the research, a list of contributors, and a small image or diagram related to the topic.
