

Workshop: Exercise 1

□ Brief:

- Design a solution to give schools in Khayelitsha access to Youtube videos.

□ Issues to address:

- How to do this with no or minimal network
- How to select content and handle updates
- Other Youtube features that need to be dealt with
- What device(s), standard(s), etc.
- Practical issues that must be considered

Workshop: Exercise 2

□ Brief:

- Design a solution for Eastern Cape schools to use tablets for learning.

□ Issues to address:

- What applications will be loaded
- How to do this with no or minimal network
- Training for students and teachers
- What device(s), standard(s), etc.
- Practical issues that must be considered

Workshop: Exercise 3

□ Brief:

- Design an audiobook solution for illiterate users in South Africa.

□ Issues to address:

- How to do this with no or minimal network
- User interface and interaction
- What device(s), standard(s), etc.
- Practical issues that must be considered
