

# Key Research Question

How do we use  
Information Retrieval / Data Mining /...  
to support **Development** in Africa?

# Outline of Talk

# What is (Human/Socio-economic) Development?

# Development Agendas

- **UN Millenium Development Goals**
- UN Millenium Declaration
- **UN Sustainable Development Goals**
- South Africa
  - **National Development Plan (2012)**
  - Growth Employment and Redistribution (1996)
  - Reconstruction and Development Plan (1994)
- Africa-wide
  - New Partnership for Africa's Development (NEPAD)
  - ...

# UN Millenium Development Goals

# SUSTAINABLE DEVELOPMENT GOALS

# SA National Development Plan 2012-2030

- ❑ The creation of jobs and the development of the economy
- ❑ Development of the economic infrastructure: coal and gas, water, electricity and telecommunications
- ❑ Environmental sustainability and management of environmental resources
- ❑ Development of an inclusive rural economy
- ❑ Regional and international trade
- ❑ Housing and urban/rural planning
- ❑ Education and training
- ❑ Medical care
- ❑ Safety and security
- ❑ Building capacity for a developmental state
- ❑ Fighting corruption
- ❑ Nation building for a unified society

# Programme of the Austrian Federal Govt 2008-2013

**Programme of  
the Austrian Federal Government  
for the 24<sup>th</sup> Legislative Period**

## Contents

Preamble Programme of the Austrian Federal Government 2008 – 2013	
TOGETHER FOR AUSTRIA	3
EMPLOYMENT AND BUSINESS LOCATION POLICY	8
RESEARCH, TECHNOLOGY AND INNOVATION (RTI)	42
INFRASTRUCTURE AND TRANSPORT	51
AGRICULTURE AND FORESTRY, RURAL AREAS	69
CLIMATE AND THE ENVIRONMENT	80
HOME AFFAIRS, JUSTICE AND NATIONAL DEFENCE	95
SOCIETY, WOMEN, FAMILY AND EQUAL OPPORTUNITIES POLICY	154
SPORT	170
HEALTH AND SOCIAL POLICY	175
EDUCATION, SCIENCE, RESEARCH, CULTURE AND THE MEDIA	202
ART AND CULTURE	224
FOREIGN AND EUROPEAN POLICY	232

# Nigeria Vision 20:2020

**ECONOMIC  
TRANSFORMATION  
BLUEPRINT**

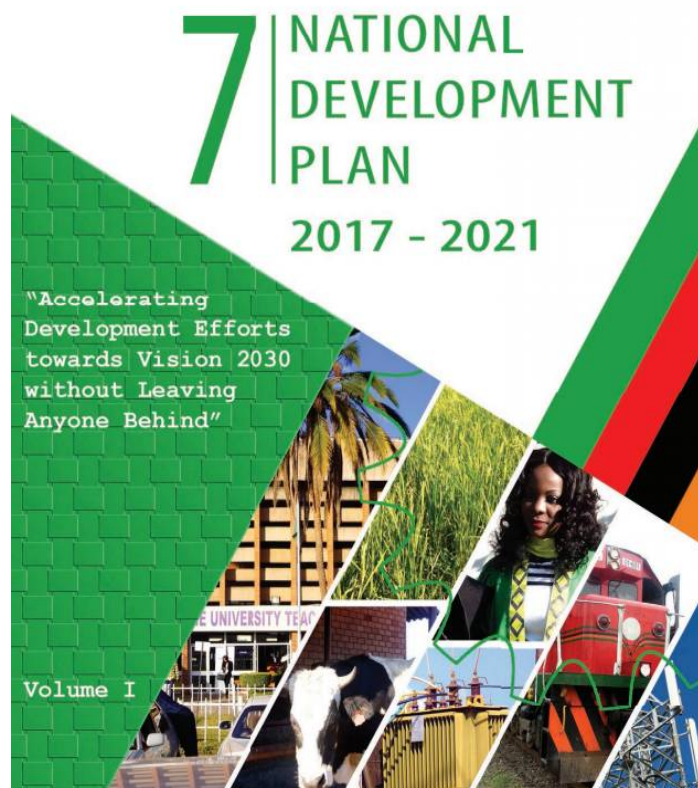

## Table of contents

Introduction	4		
Executive Summary	8		
<b>Section 1</b>			
<b>The Vision and Development Priorities</b>			
Defining NV20:2020	14		
The Vision and National Aspirations	14		
The Strategic Framework for NV20:2020	15		
Imperatives for Nigeria's Economic Transformation	16		
The Burning Platform for Change	16		
The Economic Growth Challenge	17		
Domestic Constraints to Growth and Development	18		
The Challenge of Growth in the Emerging Global Landscape	19		
<b>The Dream Economy-Our Economic Aspirations</b>	21		
Envisioned Economic Size & Structure	21		
Macroeconomic Strategies And Policy Thrusts	22		
Key Growth Drivers & Sectors Of Strategic Focus	24		
Critical Policy Priorities	25		
<b>Section 2</b>			
<b>Guaranteeing The Well-Being And Productivity Of The People</b>			
Eradicate extreme hunger and poverty	29		
Enhance access to quality And affordable healthcare	31		
Provide sustainable access to potable Water and basic sanitation	32		
Provide accessible and affordable Housing	33		
Build human capacity for sustainable Livelihoods and national development	34		
Promote gender equality And empower women	38		
Improve access to micro-credit	40		
Foster a culture of entertainment and Recreation for enhanced productivity	41		
<b>Section 3</b>			
<b>Optimising The Key Sources Of Economic Growth</b>		48	
Stimulate primary production To enhance the competitiveness Of Nigeria's real sector		48	
Significantly Increase production Of processed and manufactured Goods for export		52	
Stimulate domestic and foreign Trade in value-adding products and services		59	
Strengthen linkages between Key sectors of the economy		63	
<b>Section 4</b>			
<b>Fostering Sustainable Social And Economic Development</b>		70	
Develop efficient, accountable, transparent and participatory governance		71	
Establish a competitive, private Sector led business environment Characterized by sustained Macroeconomic stability		74	
Enhance national security and Improve the administration of justice		76	
promote unity in diversity, national pride, and the conservation of the nation's cultural heritage		77	
Develop sufficient and efficient infrastructure to support sustained economic growth		78	
Preserve the environment for sustainable socio-economic development		83	
Promote the sustainable development of Nigeria's geo-political regions into economic growth poles		83	

# Zambia 7<sup>th</sup> National Dev Plan

10.3.2	Strategy 2: Expand capacity to increase access to quality health care .....	97
10.3.3	Strategy 3: Enhance food security and nutrition .....	98
10.3.4	Strategy 4: Promote private sector participation in health care delivery .....	98
10.3.5	Strategy 5: Accelerate human resource outputs, recruitment and retention .....	98
10.4	DEVELOPMENT OUTCOME 7: IMPROVED EDUCATION AND SKILLS DEVELOPMENT .....	99
10.4.1	Strategy 1: Enhance access to quality, equitable and inclusive education .....	100
10.4.2	Strategy 2: Enhance access to skills training .....	100
10.4.3	Strategy 3: Enhance private sector participation .....	101
10.4.4	Strategy 4: Continuous review of curriculum .....	101
10.4.5	Strategy 5: Enhance role of science, technology and innovation .....	101
10.5	DEVELOPMENT OUTCOME 3: IMPROVED ACCESS TO WATER SUPPLY AND SANITATION .....	102
10.5.1	Strategy 1: Enhance provision of adequate safe water and sanitation .....	102
10.5.2	Strategy 2: Improve availability of water and sanitation infrastructure .....	103
10.5.3	Strategy 3: Enhance research in water supply and sanitation services .....	103
10.5.4	Strategy 4: Promote alternative financing for water and sanitation .....	103
10.5.5	Strategy 5: Enhance provision of adequate solid waste management services .....	103
11.	CREATING A CONDUCTIVE GOVERNANCE ENVIRONMENT FOR A DIVERSIFIED AND INCLUSIVE ECONOMY .....	105
11.1	OVERVIEW .....	105
11.2	BINDING CONSTRAINTS TO A CONDUCTIVE GOVERNANCE ENVIRONMENT FOR A DIVERSIFIED AND INCLUSIVE ECONOMY .....	105
11.3	DEVELOPMENT OUTCOME 1: IMPROVED POLICY ENVIRONMENT .....	106
11.3.1	Strategy 1: Reform and re-establish inclusive consultative structures .....	106
11.3.2	Strategy 2: Reform labour policy and legislative framework .....	106
11.3.3	Strategy 3: Accelerate implementation of the Decentralisation Policy .....	106
11.3.4	Strategy 4: Enhance national data and information systems .....	107
11.4	DEVELOPMENT OUTCOME 2: IMPROVED TRANSPARENCY AND ACCOUNTABILITY .....	107
11.4.1	Strategy 1: Strengthen transparency and accountability mechanisms .....	107
11.4.2	Strategy 2: Strengthen public financial management .....	108
11.5	DEVELOPMENT OUTCOME 3: AN INCLUSIVE DEMOCRATIC SYSTEM OF GOVERNANCE .....	108
11.5.1	Strategy 1: Promote platforms for citizen engagement and participation .....	108
11.5.2	Strategy 2: Strengthen electoral processes and systems .....	109
11.6	DEVELOPMENT OUTCOME 4: IMPROVED SERVICE DELIVERY .....	109
11.6.1	Strategy 1: Scale-up public service reforms .....	109
11.6.2	Strategy 2: Strengthen land administration and management .....	110
11.7	DEVELOPMENT OUTCOME 5: IMPROVED RULE OF LAW, HUMAN RIGHTS AND CONSTITUTIONALISM .....	110
11.7.1	Strategy 1: Strengthen prosecution system .....	110
11.7.2	Strategy 2: Enhance access to justice .....	111
11.7.3	Strategy 3: Promote human rights .....	111
11.8	DEVELOPMENT OUTCOME 6: ENHANCED NATIONAL VALUES, PRINCIPLES AND ETHICS .....	111
11.8.1	Strategy 1: Promote inculcation of national values and principles .....	112
11.8.2	Strategy 2: Promote platforms for religious engagement and participation .....	112
11.8.3	Strategy 3: Enhance research in application of values and principles .....	112
PART V: 7NDP FINANCING .....		115
12.	FINANCING THE 7NDP .....	117
12.1	OVERVIEW .....	117
12.2	RESOURCE ENVELOPE .....	117
12.3	RESOURCE MOBILISATION STRATEGY .....	117
12.4	EXPENDITURE .....	118
12.5	EXTERNAL GRANTS (ASSUMPTIONS) .....	119
12.6	PRIVATE SECTOR FINANCING .....	119
12.7	DOMESTIC AND EXTERNAL FINANCING .....	119
12.8	OTHER FINANCING OPTIONS .....	119

# The Decolonisation Debates

- ❑ How do we decolonise African society?
  - Different knowledge systems? ICT? Do we do ICT differently?
  - Do we need a programming language with keywords in isiZulu?
  - Do we teach programming in isiZulu?
  - Public intellectuals or universal scholars?
  - Excellence vs. Local Relevance
- ❑ Why is AFIRM mostly run by people from the Northern Hemisphere?
- ❑ What do they say: Ngũgĩ wa Thiong'o, Mahmood Mamdani,...

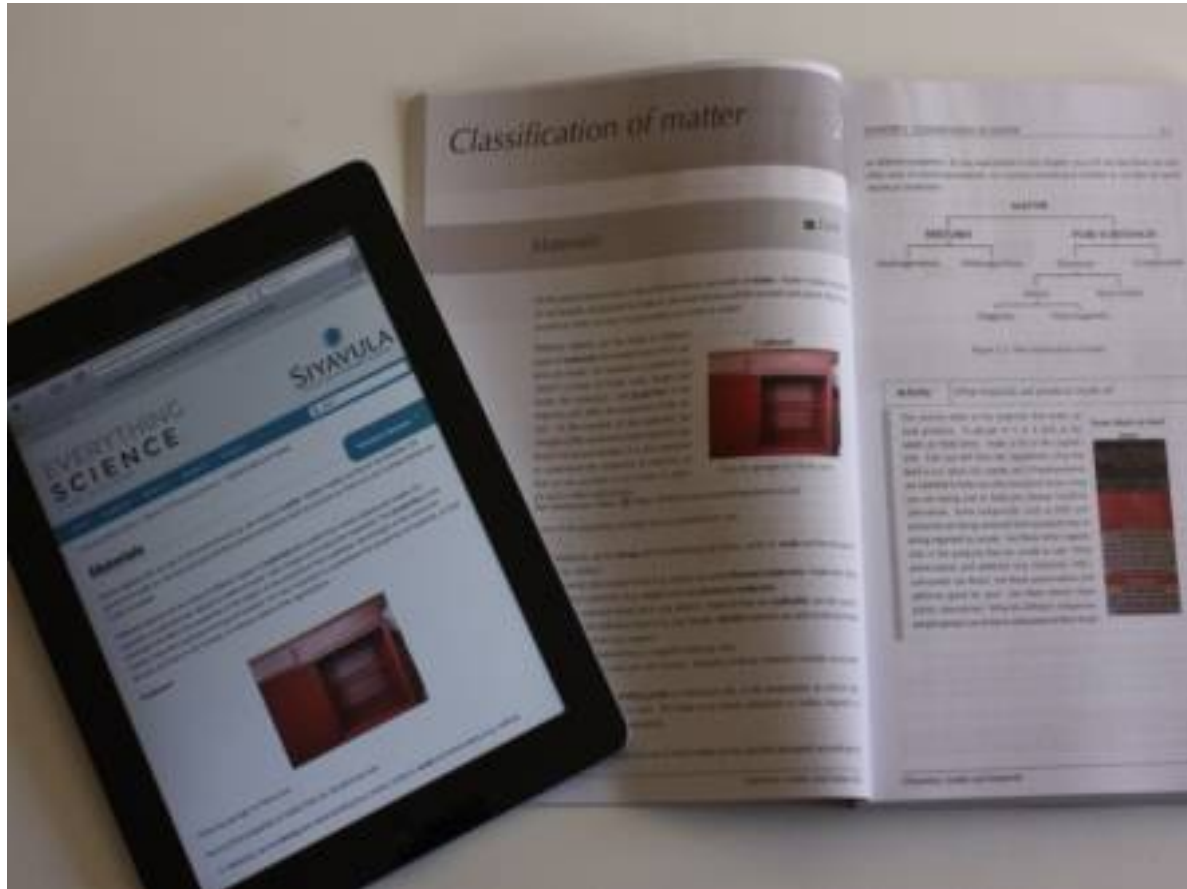

# What is ICT for Development

# What is ICT4D: Example 1/4

# What is ICT4D: Example 2/4

PATIENT'S BLOOD GROUP				
KNOWN ALLERGIES				
VACCINATION RECORDS				
Vaccine	Date Received	Given by (signature)	Effective for approx	Booster/ Revaccination due date
HUMAN NORMAL IMMUNO-GLOBULIN For Hepatitis A 5ml			1-3m	
HEPATITIS A				
Dose 1	30.1.95		boost 6-12m	
Booster	2.10.98		≤10y	2015-2005
HEPATITIS B**	11.8.00	K. D. W. W.		
Dose 1			N/A	
Dose 2	14/2/11	D. A. M.	N/A	
Dose 3			≤5y	
Dose 4 (if required)				
COMBINED HEPATITIS A & B				
Dose 1			N/A	
Dose 2			N/A	
Dose 3			≤10y hepatitis A	
			≤5y hepatitis B	

Vaccine	Date Received	Given by (signature)	Effective for approx	Booster/ Revaccination due date*
MENINGITIS (A+C) w/y	21.2.95		5y	
	14/2/11	D. A. M.	3-5y	
POLIO	9.9.5	Yellow fever	10y	
RABIES				
Dose 1			N/A	
Dose 2			N/A	
Dose 3			2-3y	
DIPHTHERIA/TETANUS BOOSTER	22/2/11		10y	
			10y	
TETANUS BOOSTER	23.1.95		10y	
TYPHOID	2.10.98		3y	22/2/11
	21/1/05	UP	3y	(3y) booster
YELLOW FEVER	9.9.5		10y	
	14/2/11	D. A. M.	10 y	2021

As booster recommendations may change from time to time check with your doctor or nurse before travelling that your immunisations are up-to-date.  
 \*Some people may require a booster before date suggested. Check with your GP.  
 \*\*Children under the age of 2 years: effective up to 2 years.  
 \*Primary course must have been completed previously  
 \*Hepatitis B schedule 0,1,6.

## What is ICT4D: Example 3/4

# What is ICT4D: Example 4/4

# The Big Question

- ❑ Can we use ICT to aid human development?
- ❑ Can we use IR/DM to aid human development?

# Challenges: IR/DM for Development

# Goal: IR for Human Development

## □ Human Dignity

- Promote the status of local languages.
- Create tools that support local languages.
- Increase presence of local languages.

## □ IR4D

- IR for employment, governance, health, etc.

# Challenge 1: IR algorithms

- Little algorithmic support in IR/NLP.

- Are there language-specific tools/algorithms in African languages?
  - How well do they work?
  - How many languages are supported?

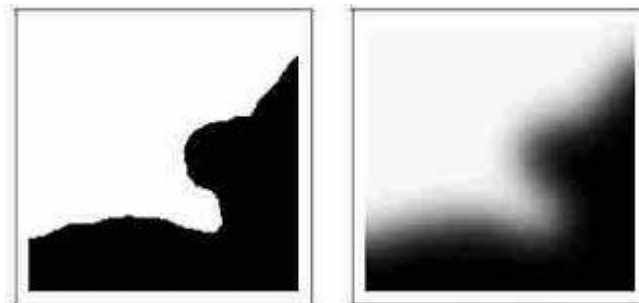

## Challenge 2: Data

- Very little, mixed language and noisy data.
- <1000 Wikipedia documents for some African languages.
- Few corpora!
  - How much electronic content do we produce?

No	Language	Language (local)	Wiki	Articles
254	Tulu	ತುಳು	tcy	937
255	Cherokee	ᏪᏯ	chr	854
256	Latgalian	Latgaļu	ltg	806
257	Samoan	Gagana Samoa	sm	797
258	Oromo	Oromoo	om	772
259	Ingush	ГалгӀай	inh	764
260	Xhosa	isiXhosa	xh	737
261	Old Church Slavonic	Словѣньскъ	cu	657
262	Romani	romani - रोमानी	rmy	657
263	Bambara	Bamanankan	bm	646
264	Tswana	Setswana	tn	641
265	Norfolk	Norfolk	pih	639
266	Kirundi	Kirundi	rn	611
267	Cheyenne	Tsetsêhestâhese	chy	609
268	Twi	Twi	tw	606
269	Gothic	𐌿𐌿𐌿𐌿𐌿𐌿	got	563
270	Tumbuka	chiTumbuka	tum	562
271	Tsonga	Xitsonga	ts	561
272	Akan	Akana	ak	559
273	Sesotho	Sesotho	st	539
274	Atikamekw	Atikamekw	ati	500

## Challenge 3: Fuzziness

- Unclear language boundaries.
- How many languages are there?
  - How many have been clearly defined?
  - How many are managed?
- What is a language and what is a dialect/accent?

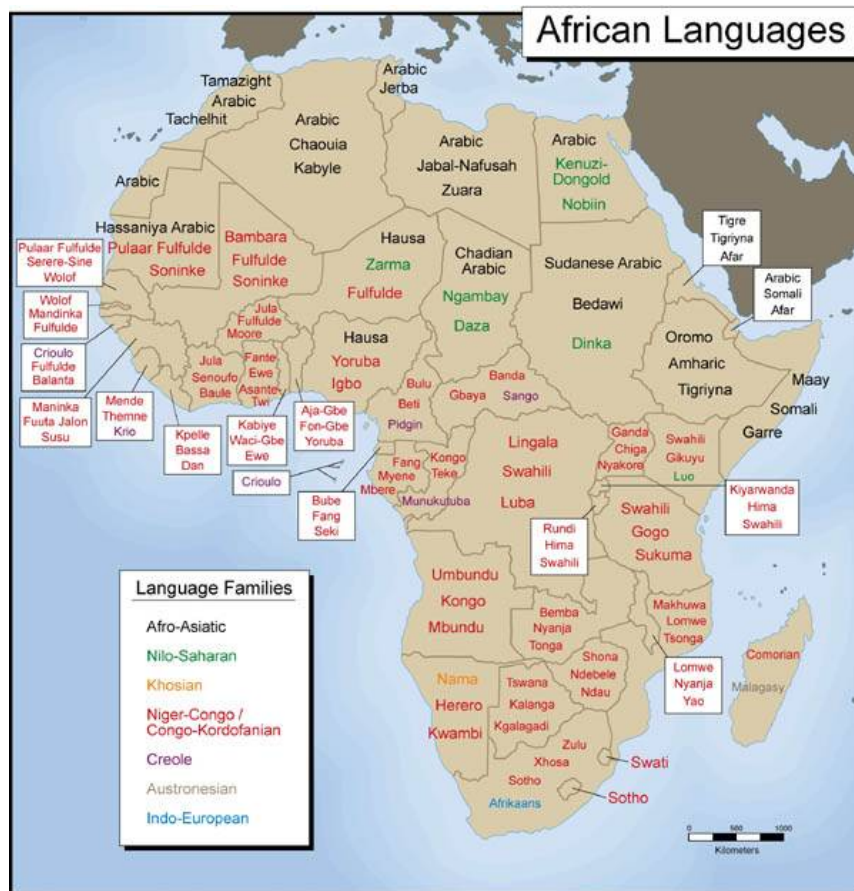

## Challenge 4: Digital Divide

- Access / Knowledge

- How many people understand how to search?
- How many people use search?
  - Do people even have Internet access?

# Challenge 5: Many Languages

- ❑ Multilingualism is the norm.
- ❑ How many languages do people use?
- ❑ Are documents/queries in one language or are they mixed?

## Challenge 6: Resource Limits

- ❑ We do not have the resources.
- ❑ Limited skills among researchers.
- ❑ Limited bandwidth to access data.
- ❑ Limited skills among users.
- ❑ Limited funding for anything.

# Studies: Collection Development

# Corpora: Language Detection

*Meluleki Dube, U/G*

- Can we successfully determine the language, from among a group of 9 related African languages, of a piece of text?
  - Web page?
  - Tweet?
- Trigram modelling and model alignment distance gives up to 92% accuracy.
  - Incorrect predictions scatter by language similarity.

# Corpora: Crowdsourcing

*Sean Packham, MSc*

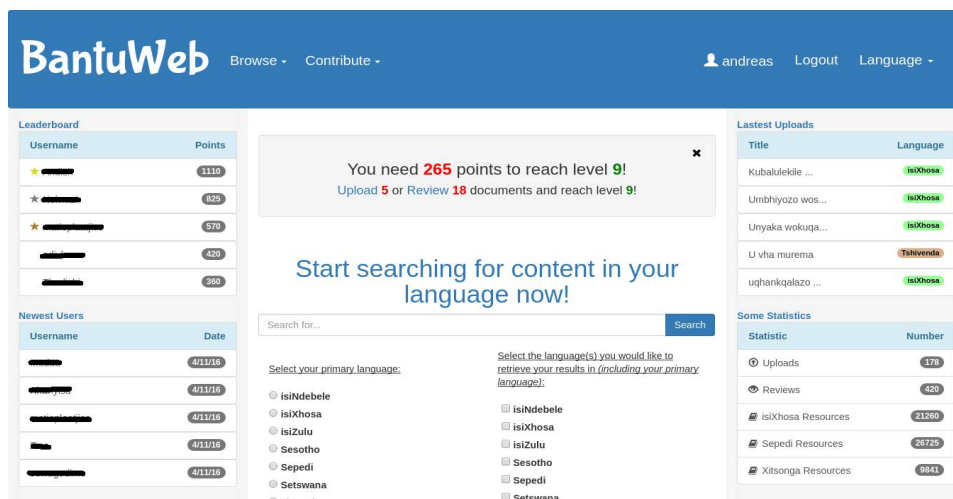

- ▣ Parallel corpus in isiXhosa-English.
- ▣ Will people contribute if money paid is varied or there is no money but only gamification?
  - Payment is only criterion!

# Corpora: SALANG

*Andreas von Holy, Osher Shuman, Alon Bresler,  
Bsc(Hons)*

- ❑ Create a central portal for documents in any SA Bantu language, with gamification, multilingual search, etc.

The screenshot shows the BantuWeb website interface. The header is blue with the BantuWeb logo and navigation links: Browse, Contribute, and a user profile for 'andreas' with Logout and Language options. The main content area is white and features a central message: 'You need 265 points to reach level 9! Upload 5 or Review 18 documents and reach level 9!'. Below this is a search bar and a prompt to 'Start searching for content in your language now!'. The left sidebar contains a 'Leaderboard' table and a 'Newest Users' table. The right sidebar contains a 'Latest Uploads' table and a 'Some Statistics' table.

Statistic	Number
Uploads	178
Reviews	420
isiXhosa Resources	21260
Sepedi Resources	26725
Xitsonga Resources	9841

# Corpora: Long-term effects

*Jackson Moji, MSc (current)*

- Does gamification for corpus creation work in the long term?
  - Will people lose interest?
  - Will they continue to contribute?
  - How is intrinsic motivation affected by time?
  
- Extension of SALang project.

# Studies: African Language IR

# Mixed Language IR

*Mohammed Mustafa Ali, PhD*

- ❑ Noted that Google is language unaware.
- ❑ Poor results for mixed queries – queries in multiple languages.
  - Dominant languages are dominant in results.
  - Mixed language use is very popular in Africa.
- ❑ Solution: Examine queries and rerank based on language-based collection weights.

# Bantu Language IR

*Nyasha Katemauswa, Michael Kyeyune, (U/G);  
Nkosana Malumba, Katlego Moukangwe, Sinead  
Urisohn, Andre Lopes, Bsc(Hons); Catherine Chavula,  
Joseph Telemala (PhD - current)*

- ▣ Search engines in Bantu languages in South Africa/Malawi/Tanzania/etc.
- ▣ Many core IR algorithms are unchanged but some language-specific algorithms needed: Language identification; Text pre-processing and normalization; Ranking and reranking...

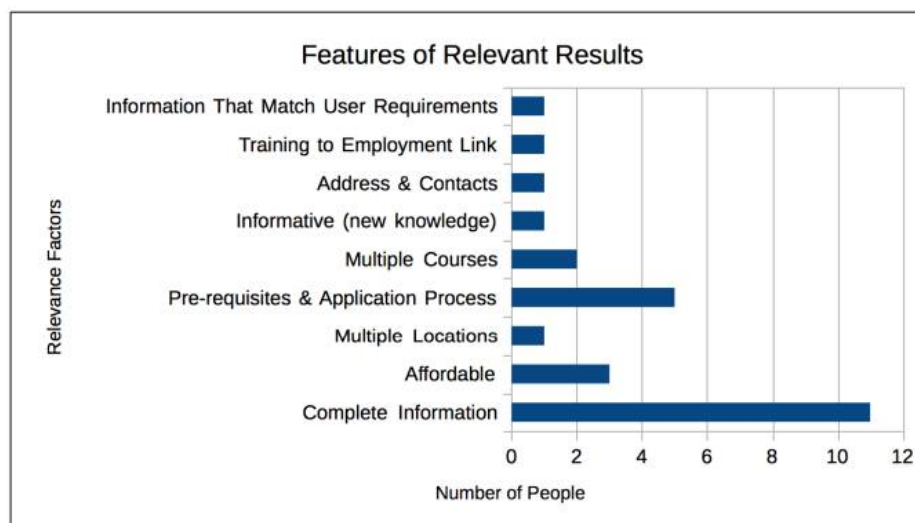

# Studies: IR/DM for Development

# IR for Development

*Gina Paihama, PhD (current)*

- How can we give users directed results to address unemployment?
- Relevance is more specific here:

# DM for Development

*Selvas Mwanza, PhD (current)*

- Can we use Twitter data to evaluate developmental measures in society (e.g., level of free speech)?
  - We have found an association between what people discuss (politics vs. entertainment) and how.

# Studies: IR in Low Resource Environments

# Bantu Language IR: Speech UI

*Morebodi Modise, MSc*

- Speech-driven mobile search interface in isiXhosa.
- Works well, but educated people want English!

(a) Query submission interface

(b) Detecting voice queries

(c) Detected voice query with list of voice results

Fig. 3: Mobile voice interface

# Bleek and Lloyd: Dictionary

*Lebogang Molwantoa, Sanvir Manilal, Kyle Williams, BSc(Hons)*

- Visual dictionary – pictures of words.
- Find meanings of words in stories by image search.

## THE BLEEK AND LLOYD IXAM DICTIONARY

This digital publication is part of a Llarec project to digitise, research and publish the Bleek and Lloyd Archive. Llarec (the Lucy Lloyd Archive, Resource and Exhibition Centre) is a University of Cape Town research centre located at the Michaelis School of Fine Art.

The project has been made possible by funding provided by the Andrew W. Mellon Foundation and De Beers; and is the result of the cooperation of the three curating institutions: University of Cape Town, Iziko South African Museum and The National Library of South Africa.

THE BLEEK LLOYD  
IXAM DICTIONARY

[English-Ixam Dictionary](#)

THE BLEEK LLOYD  
IXAM DICTIONARY

[Ixam-English Dictionary](#)

# Bleek and Lloyd: Transcription

*Kyle Williams, MSc; Ngoni Munyaradzi, MSc*

- ▣ Using machine learning to transcribe |Xam.
- ▣ Training data manually generated.
- ▣ 45% accuracy at best.
  
- ▣ Crowdsourcing had 10% better performance.
  - Answer determined by agreement among 3 amateur transcribers.

# Studies: Low-Resource Repositories

# Repositories in Low-Resource Environments

- What if you want to create an archive to store heritage collections, with typical discovery services (like search),

BUT

you are in a **low-resource environment?**

# What is a Low-Resource Environment?

- Poor countries

- + Poor regions in rich countries

- + some scenarios in rich regions in rich countries

- As examples:

- Malawi

- Rural Scotland

- Someone in New York City wanting to curate family photos

# What is the net effect?

## What is a Digital Object Repository?

# How to build a Low Resource Archive

- ▣ *"2 million euros and 2 years and we can build any digital repository system"*
- ▣ Can we use DSpace/AtoM/etc.?
  
- ▣ Can we do the same thing as everyone else?  
*OR*
- ▣ Can we create a more suitable architecture for low resource environments?

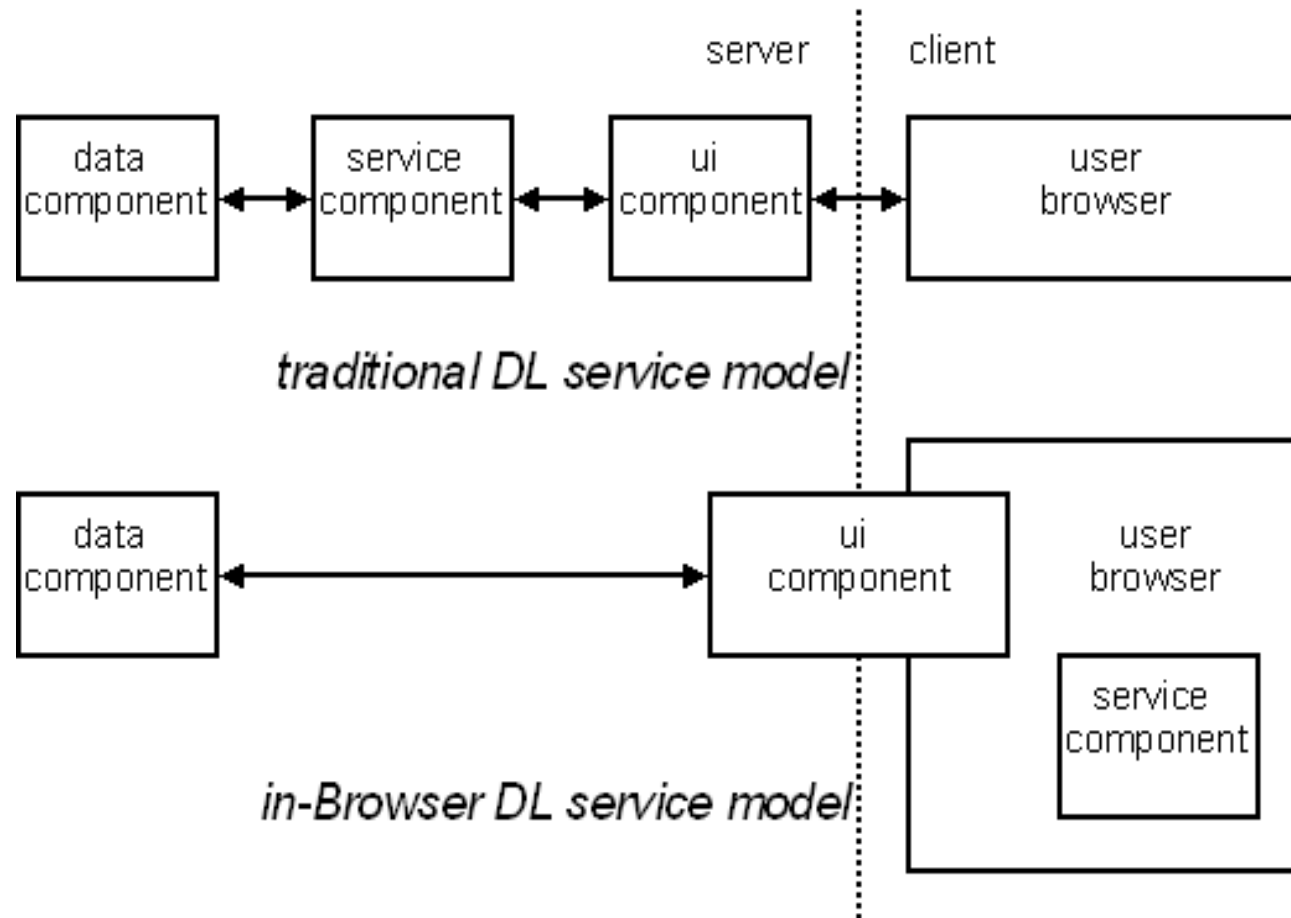

## Approach 1: XML + XSLT → XHTML

- ❑ Encode all descriptive information using XML files for objects, users, etc.
- ❑ Use XSL transformations to convert the XML metadata into corresponding HTML page views.
- ❑ Also, pre-process XML to create search/browse indices.

# Approach 2: in-Browser Services

## Approach 3: Selected Online Services

- ▣ Use online Web applications to add items, comments, annotation, etc.
  
- ▣ Web applications must modify XML and regenerate portions of static site.
  - No dynamic page generation.

# Complex Query Results: Ave. Perform

**Fig. 5.** Average times for faceted search/browse queries of difference complexities across all collection sizes.

# What next?

## Where we are

- Some early successes but still:
  - Many languages, with
  - Few documents,
  - Few resources (money/users), and
  - Lots of mixing of languages in queries and documents.
- Lots of work still needed
- Lots of opportunities for research

# What should we do

- Think differently about data.
- Think differently about IR/DM.
  - Some ideas are universal (indexing?).
  - Some ideas are not (online, text, Unicode).
- Invent completely new solutions.
- Change the world!

# Why AFIRM?

- ▣ Boost research in IR/DM in Africa.
- ▣ Reconnect African researchers with international community.
- ▣ Build a community of African researchers.
- ▣ Things to ponder:
  - AFIRM 2021 – where?
  - How can AFIRM improve the model?
  - What else should we do as a community?
  - Can we set a common challenge as the basis for research? What challenge?

# questions, comments, ...
